

To use this 'flower compass'

1. Print this page using a color printer.
You might want to use a heavy paper or mount the printed page on posterboard.

2. Cut out the two shapes along their outside edges.

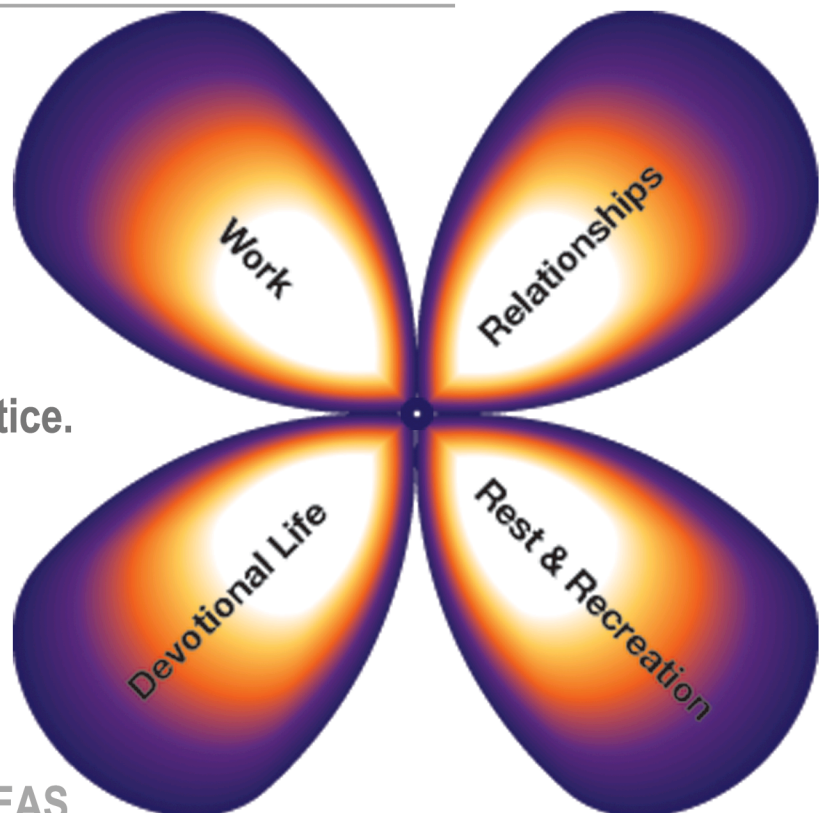

3. Poke holes in the center of each shape where indicated by a white circle.

4. Use a brad,  or similar fastener, to join the two pieces together while still allowing them to spin.
Be sure the "AREAS" shape is placed on top of the "BODIES" shape.

BODIES

Once assembled,
you can use this tool
with your daily 4x4 practice.
